REMINDER

Each year, the Clarksville-Montgomery County School System sends a survey to collect data about federally connected students. Federal Impact Aid is designed to assist local school districts that have lost property tax revenue due to the presence of tax-exempt Federal property. Federal Impact Aid is set up for school districts where federally owned lands (such as Fort Campbell, government buildings, TVA steam plants, subsidized housing, etc.) are located. Its intent is to help offset the lost property taxes that would have been collected if businesses or privately owned residences were located there instead. This year, we are utilizing an electronic survey, which also is confidential and has no effect on personal taxes or on those who live in subsidized housing. To complete the survey, if you have not already done so, please click HERE. It is very important that this survey is completed for each student.
