Field Day is an important tradition at Sango as well as a significant day for our students. We are excited to help our Sango Virtual Families participate in an At-Home Sango Field Day. Each virtual family is encouraged to spend part of the day on either May 13th or May 14th participating. Please review the attached PDF of at-home field day activities that have been designed by OPEN (Online Physical Education Network). Each activity can be completed indoors or outdoors while using common household items. You won't be asked to purchase any specialized equipment or supplies. There are multiple events; however, you and your family can elect to do as little or as much as you wish. If you like an event, then do it. If you don't like an event, then skip it. If you are feeling creative, then make up your own events. Feel free to share images with the school or PTO Social Media using the following #SangoFieldDay. We appreciate you and are hopeful that your entire family will use this opportunity as a fun and meaningful way to be physically active and create lasting memories.

Activities may be viewed [here](#).
